Reasons for allowance

1. Claims 1-15 are allowable over the prior art of record.
2. The following is an examiner's statement of reasons for allowance:

As per claims 1-15, prior art of record does not teach or fairly suggest a method for accelerating the generation of control signals in a microcode controller system or a microcode controller system that accelerates the microcode controller operations by using an address latch and an instruction code latch to create the effect of a dual-port storage. By providing an address latch that responds to a clock signal level and a code word latch that responds to the respective other clock signal level, it is possible to read a microcode address of a code word while the code word of the previous cycle is also being read out.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
